DECLINES ASSISTANCE

GOVERNOR SWETTENHAM OF JAMAICA REFUSES AID FROM ADMIRAL DAVIS.

ORDERS SAILORS TO LEAVE

BRITISH OFFICIAL OBJECTS TO THE PRESENCE OF AMERICANS IN KINGSTON.

AMERICAN VESSELS DEPART

WARSHIPS UNDER COMMAND OF ADMIRAL DAVIS LEAVE THE STRICKEN CITY.

Kingston, Jamaica, Jan. 21.—Rear Admiral Davis' mission of mercy to stricken Kingston came to an abrupt and painful conclusion in consequence of Governor Swettenham's objection to the presence of American sailors engaged in the work of clearing the streets, guarding property and succoring the wounded and sick, culminating in a letter to the admiral peremptorily requesting him to re-embark all parties which had been landed.

Admiral Davis was greatly shocked and pained, and paid a formal visit to Governor Swettenham, informing him that the United States battleships Missouri and Indiana and the gunboat Yankton would sail at once.

To the Associated Press Admiral Davis said that immediate compliance with Governor Swettenham's request was the only course consistent with the dignity of the United States.

The friction between the governor and the admiral began with the arrival of the American warships, when the governor objected to the firing of a salute in his honor on the ground that the citizens might mistake the firing for a new earthquake. He also declared there was no necessity for American aid—that his government was fully able to preserve order, tend the wounded and succor the homeless.

Davis Landed Bluejackets.

Rear Admiral Davis, however, landed parties of bluejackets, who patrolled the streets, cleared the debris, razed ruins, attended many of the wounded and won the highest praise from citizens and military officers for excellent work.

On the afternoon of the salute incident, Rear Admiral Davis wrote Governor Swettenham as follows:

"My Dear Governor—I beg you to accept my apology for the mistake of the salute this afternoon. My order was misunderstood and the disregard of your wishes was due to a mistake in transmission of my order. I trust the apparent disregard of your wishes will be overlooked.

"I landed working parties from both ships today to aid in clearing the various streets and buildings, and purpose landing parties tomorrow for the same purpose unless you expressly do not desire it. I think a great deal may be done in the way of assistance to private individuals without interfering with the forces of yourself and the government officials. As the only object of my being here is to render such assistance as I can, I trust you will justify me in this matter for the cause of common humanity.

"I had a patrol of six men ashore today to guard and secure the archives of the United States consulate, together with a party of ten clearing away wreckage. This party after finishing its work at the consulate assisted a working party to catch thieves, recovering from them a safe taken from a jewelry store, valued at \$5,000. From this I judge that the police surveillance of the city is inadequate for the protection of private property.

Actuated by Humane Motive.

"Actuated by the same motive, namely, common humanity, I shall direct the medical officers of my squadron to make all efforts to aid cases of distress which perhaps do not come under the observation of your medical officers.

"I shall have pleasure in meeting you at the hour appointed, 10 a. m., at headquarters house.

"I trust you approve of my action in this matter."

Governor Swettenham responded as follows:

"Dear Admiral—Thanks very much for your letter, your kind call, and all the assistance given or offered us. While I most heartily appreciate the very generous offers of assistance, I feel it my duty to ask you to re-embark the working party and all parties which your kindness prompted you to land.

"If in consideration of the vice consul's assiduous attentions to his family at his country house the American

consulate needs guarding, in your opinion, although he was present and it was not guarded an hour ago, I have no objection to your detaching a force for the sole purpose of guarding, but the party must have no firearms and nothing more offensive than clubs or staves for this function.

"I find your working party was this morning helping Mr. Crosswell clean his store. Crosswell was delighted that the work was done without cost. If your excellency should remain long

enough I am sure almost all the private owners would be glad of the services of the navy to save expense.

"It is no longer a question of humanity; all the dead died days ago, and the work of giving them burial is merely one of convenience.

"I would be glad to accept delivery of the safe which it is alleged thieves had possession of. The American vice consul has no knowledge of it; the store is close to a sentry post, and the officer of the post professes ignorance of the incident.

"I believe the police surveillance of the city is adequate for the protection of private property. I may remind your excellency that not long ago it was discovered that thieves had lodged in and pillaged the residence of some New York millionaire during his absence in the summer, but this would not have justified a British admiral landing an armed party and assisting the New York police.

"I have the honor to be, with profound gratitude and the highest respect, your obedient servant."

Countermanded Order for Supplies.

When Rear Admiral Davis called at the headquarters house to bid farewell to Governor Swettenham he waited fifteen minutes. He then informed the governor's aide that he would wait no longer and requested him to tell the governor that in consequence of his attitude in not desiring American aid he had countermanded President Roosevelt's order dispatching the supply ship Celtic, laden with beef, for the relief of Kingston.

Governor Swettenham arriving at that moment, there was a brief private meeting and the governor escorted Rear Admiral Davis to his carriage. Salutations were exchanged and the governor, replying to Rear Admiral Davis, expressed regret that he was unable to do more for Kingston and said: "All the more to your honor," adding a deep bow, evidently in reply to Admiral Davis' reference to his departure and meaning that he would do the same if in the admiral's place.

Rear Admiral Davis told the Associated Press that he deeply regretted the governor's attitude. He was still convinced that the governor was unequal to the task of relieving distress—that this was evident from the fact that the American field hospital had tended many sick and wounded and others were constantly arriving, having been unable to gain admission to the government hospital.

The American hospital was established in Winchester Park, the property of the Jesuits, Thursday, under the American flag and in charge of Fleet Surgeon Ames and Surgeon Norton of the battleship Missouri, and aided by Sisters of Charity. The hospital received more than fifty sufferers, including persons with fractured bones and skulls, cases of blood poison, which had resulted from neglect of wounds, etc.

Opposed to American Hospital.

Governor Swettenham and the local medical men were greatly opposed to the American hospital, insisting that there was no necessity for it as all the wounded already had been attended to. Surgeon Ames said the local medical men were very ready to accept medical supplies, but wished no American interference with the wounded. Consequently there was much suffering which the American officers, in the name of humanity, were anxious to relieve. A party of American sailors worked at repairing the hospital building to the last moment, when they hauled down their flag, the Jesuits taking charge, and returned to their ships, the Yankton sailing at 1 o'clock, followed by the battleships at 4 o'clock.

Governor Swettenham's attitude toward a friendly American officer's assistance is greatly deplored by many of the residents of Kingston, some of them even suggesting that the governor be petitioned to resign. His action is construed by some as inspired by resentment of President Roosevelt's attitude toward Jamaican negroes on the Panama canal. Others ridicule the governor's objection to the landing of American sailors, armed or not armed. The insecurity of the city is evidenced by the attempt Friday night by six negroes to waylay a midshipman from the Missouri, who drew his revolver and put his assailants to flight.

COSTLY FIRE IN OHIO.

Property Valued at Seven Hundred Thousand Dollars Destroyed.

Youngstown, O., Jan. 21.—Fire, thought to have been caused by the crossing of electric wires in the basement of the building occupied by the H. L. McElroy company, furniture dealers, completely destroyed that building and the adjoining one and the Eastman hotel. The total loss is estimated at \$700,000.

STORM AT BUFFALO

TERRIFIC GALE SWEEPS OVER THAT CITY AND CAUSES IMMENSE DAMAGE.

TWO FATALITIES REPORTED

AND THE LOSS TO PROPERTY IS ESTIMATED AT OVER A MILLION DOLLARS.

Buffalo, N. Y., Jan. 21.—A terrific gale which blew ninety miles an hour at times, swept this city for eighteen hours and has done \$1,500,000 damage to shipping.

Five large lake liners wintering just inside the breakwater wall were torn from their moorings and driven around. The gale still rages and no aid can be given the endangered vessels. They are believed to be resting on soft bottom and unless the gale becomes worse will probably not suffer more damage.

The vessels aground are the Hurlburt W. Smith, William Nottingham, J. Q. Riddle, Monroe C. Smith and A. G. Brower. Most of them are owned in Cleveland. They have cargoes.

Caretakers were aboard but are believed to be safe.

For hours the gale swept the water front, tearing everything that stood in its path. Docks and wharves were wrecked and carried away; craft broken from their moorings, smashed against bridges and doing serious damage. Smokestacks and buildings of lighter construction were blown down like paper boxes.

The water in Lake Erie rose three feet in as many minutes. The inner breakwater walls were pounded until portions of them were broken away.

After a day and a night of continued hurricane the Niagara frontier lies a scene of wreckage and destruction in the wake of the storm. Two lives are reported lost so far and a property damage that will aggregate \$2,000,000 is the toll of the storm. Lake Erie, with its level higher than has been known for twenty years, has gorged the Niagara river to overflowing and thousands of dollars worth of property has been carried down the stream.

The city had telephone and telegraphic communication with the principal cities most of the day. The brunt of the storm seems to be west of Buffalo. Railroad service in and out of the city has been badly disarranged. The gale brought with it a blinding snow storm.

HOMELESS PEOPLE SUFFER.

Cold Adds to Misery of Ohio Flood Victims.

Cincinnati, Jan. 21.—Cold weather and a gale of wind increased the suffering of the thousands who had been made homeless by the flood in Ohio, and a number of buildings that had been weakened by the water went down before the wind. The first and probably most serious loss by collapsing of walls was caused during the night when several floors in the buildings on Walnut street occupied by the A. Janssen Wholesale Grocery company and the Ohio Buttery company fell with a crash. Both buildings were heavily loaded with merchandise in the upper stories.

The area of flooded section has increased considerably. For several hours the river was stationary at 64.8 feet, but the weather bureau officials could find only temporary consolation in this fact, announcing that reports indicated that the river here would go up to at least sixty-six and perhaps sixty-seven feet within the next thirty-six hours.

The water has cut off approach to the foot bridge across the Ohio, isolating most of the people on the Kentucky side of the river.

Systematic efforts to relieve the sufferers, who are estimated at nearly 20,000 in Cincinnati and the nearby cities on both sides of the river, are under way.

The flood situation at Lawrenceburg, Ind., and at Portsmouth, O., is alarming. A terrific storm occurred at the latter place and the levees broke, flooding the town and causing a panic among the inhabitants, many of whom had narrow escapes from drowning.

THOUSANDS ARE HOMELESS.

Louisville Faces the Worst Flood in Her History.

Louisville, Ky., Jan. 21.—With the Ohio relentlessly pouring its floods southward and maintaining a steady rise of an inch an hour, Kentucky streams contributing their volumes from the mountain regions, a high wind blowing up stream all day, damaging shipping and preventing the rapid passing of the current, Louisville faces a flood situa-

tion which promises to equal before the crest is passed the stage of 1884, the greatest flood ever known to the city. Thousands of people are homeless.

Fatal Gale at Cleveland.

Cleveland, Jan. 21.—Cleveland was swept by a terrific gale which resulted in the death of one person, fatal injury to another, serious injuries to many others and a property loss amounting to many thousands of dollars.

DEEP REGRET IN LONDON.

Incident at Kingston Causes Great Astonishment There.

London, Jan. 21.—There is a feeling of deepest regret here over the unfortunate incident that led to the hurried departure of the American warships from Kingston. Everywhere the greatest astonishment is expressed.

Up to a late hour neither the admiralty nor the foreign office had any news of the incident except that derived from the press dispatches, and the inclination on all sides was to withhold an expression of opinion until the receipt of the official version from Governor Swettenham.

Meantime the Kingston dispatches giving the correspondence exchanged between Governor Swettenham and Rear Admiral Davis are being read with interest. The incident occurs at a moment when the British press and public are loud in an expression of grateful recognition of the prompt and generous assistance the United States rendered when it was impossible, owing to their distance from the scene, for British warships to go to the rescue.

The important question as to whether the British authorities at Kingston were in a position to maintain order appears to be debatable. Governor Swettenham's claim of ability to do so is in marked contrast to the accounts of many of the British press correspondents who recorded numerous cases of disorder, but on the other hand some of the correspondents averred that no serious disorders took place.

What seems much less debatable is that Governor Swettenham acted entirely on his own initiative. The last dispatch of the secretary for the colonies, Lord Elgin, to Governor Swettenham, which was dated Jan. 18, gave the governor full liberty of action.

SOCIETY LEADER IN PRISON.

Arrested, Tried and Sentenced Within Eighteen Hours.

St. Louis, Jan. 19.—Circuit Attorney Seger says that he is not satisfied with the sensationally rapid manner in which, within eighteen hours, Horace E. Hand, social leader and chief clerk of the Frisco railroad law department, was arrested, pleaded guilty to forgery, received his sentence and at his own request was taken to the penitentiary to serve five years' imprisonment. He will investigate the case.

SENATORS and representatives in congress will get a raise in salary to \$7,500 after March 4th if the bill that has passed the house becomes a law. In the same bill the vice president's salary is raised to \$12,000 per year.

If there is a town in this section of Minnesota that is not expecting the Soo line to strike somewhere in its vicinity we would like to be shown. Our sister city of Little Falls is the latest and if the main line does not touch there they have hopes of a "feeder."

The city of Fergus Falls has \$40,000 lying idle and although the council of that city thinks it ought to be working and earning something there is no chance unless their charter is amended, for the banks of that city will make no offer of interest for it. Few cities are bothered with a surplus.

STEPS are being taken at Fergus Falls for the establishment of a city coal and wood yard at which the necessary article will be retailed to the public at cost. The matter has been referred to a committee who will report as to the feasibility and also as to whether the charter will have to be amended in order to enable the city to engage in this traffic.

THE new officers of the county of Mahanomen, just created by the division of Norman county, will not get rich out of the first year's salary which is as follows: Auditor, \$50 per month; treasurer, \$20; attorney, \$35; probate judge, \$25; register of deeds, \$600 and 40 per cent of all fees received over that amount, and the clerk of the court all the fees collected.

We notice in looking over some of our exchanges, and they are papers people read, that the merchants of these villages are taking a rest, says the Long Prairie Argus. And this calls to mind the penny wise and pound foolish policy of many of the inland dealers. During the holiday season they will devote their energy to showing the public their bargains through newspaper publicity, but immediately the rush is over they discontinue their advertisement. When business is good there is not as much use or call for advertising as there is in dull times. Look the city papers over today and you will find page after page of bargains offered that not only attract the local trade of the cities but that induces buyers from the country to send or take their money there when the same should be spent at home, and would be if the people knew that they could get the same bargains for their money. Advertising like many other things is profitable to those who keep everlastingly at it.

One of the events of the season will be a masquerade ball to be given by the journeyman barbers Wednesday evening. The committee in charge has made every effort to see that the event is pleasant and that no objectionable characters obtain admittance to the hall. All patrons of the dance can be assured of an enjoyable evening.

In some manner the wires got crossed at the shops last night and as a result the big whistle cut loose about 1 o'clock. The blast was so long continued that it roused many citizens who wondered what was the matter. Fire was first thought of and the hello girl at central was kept busy informing anxious citizens that she had heard of no alarm and did not know what was the matter. The whistle was finally choked off and the people were allowed to go to sleep.

Rev. Richard Brown, formerly pastor of the First Congregational church of this city, but who has for the past year been engaged in Sunday school missionary work in Oregon, has accepted a call to the pastorate of a Congregational church in Livingston, Montana, and has already entered upon his duties. His family expects to remain here until March, when they will join him in his new field. Many friends will regret to see them leave Brainerd.

HAS RIGHT TO SHUT OUT PUBLIC

Judge McClenahan Sustained in State Supreme Court on Important Decision

MAY DEBAR THE CURIOUS

Constitutional Right to Public Trial Does Not Prevent Judge Barring Sightseers

The supreme court of the state of Minnesota has just sustained Judge McClenahan in an important ruling. This decision will do much to enable judges to prevent the thronging of court rooms with morbid curiosity seekers who have no business with the court or interest in the case except a depraved taste for the vile. The St. Paul News of Friday says:

"That a public trial within the meaning of the constitution does not necessarily require that the public shall be miscellaneous admitted to the court room, was decided by the state supreme court today in the case of the state against Michael Callahan, from Grand Rapids.

"Callahan was tried for assaulting a young woman and the testimony attracted such a crowd of curious spectators that Judge McClenahan, who tried the case, excluded them on the ground that the crowd was preventing the proper presentation of the evidence. "Callahan tried to get a new trial on the ground that he had not had a public trial, but the supreme court denies it."

How to Avoid Appendicitis

Most victims of appendicitis are those who are habitually constipated. SO DECEPTIVE.

Many Brainerd People Fail to Realize The Seriousness.

Backache is so deceptive. It comes and goes—keeps you guessing.

Learn the cause—then cure it. Nine times out of ten it comes from the kidneys.

That's why Doan's Kidney Pills cure it. Cures every kidney ill from backache to diabetes.

Here's a Brainerd case to prove it: Ed. Oechaine, of 601 Fifth St. S., Brainerd, Minn., says: "Hard work brought on a disturbance of the kidney action and I suffered considerable backache at times. This condition led me to go to H. P. Dunn & Co.'s drug store where Doan's Kidney Pills were advertised and get a box which I used according to directions. The backache was quickly banished and the kidney secretions were regulated. I gladly recommend such a valuable remedy to people of Brainerd."

TWENTY-FIVE YEARS AT HARD LABOR

Henry Towers Receives Sentence at Hands of Judge McClenahan This Forenoon

PLEADS COURT FOR MERCY

Judge Fleming Asks the Court to be Lenient on the Ground That the Prisoner Was and is Insane

THE SENTENCE

It is considered and adjudged that you, Henry Towers, as punishment for the crime of murder in the third degree, of which you have been duly convicted, be and you hereby are sentenced to be confined at hard labor in the state prison at Stillwater for the period of twenty-five years.

There was a good sized crowd gathered at the district court room this forenoon to hear sentence passed upon Henry Towers by Judge McClenahan. The little grandson of the defendant was in the court room with Mrs. Towers when the defendant was brought into court by Deputy Sheriff Thoein. Mr. Towers greeted several acquaintances as he passed through the court room and took his place beside his wife and took his little grandson upon his knee. Judge McClenahan arrived shortly after and called court to order. Without further families he ordered the defendant to rise and asked him if he had anything to say before sentence was passed upon him.

Judge Fleming arose and asked the permission of the court to say a few words in behalf of his client, which was granted.

Mr. Fleming in opening his remarks stated that he believed that the trial through which they had just passed was eminently fair and the jury as good as could be got in Crow Wing county. That in what he should say he did not wish to be understood as in any way reflecting on the jury. He took the ground that the defendant was insane and said that the fact that five of the jury so voted was sufficient reason for asking the mercy of the court on that ground. He proceeded to review the case so far as the insanity plea was concerned. Sympathy, he said, they did not want, but did want mercy; mercy on account of the mental condition of the defendant who was not a sane man. The question of a higher degree of crime he said had not been seriously considered save by one juror. The plea was an earnest and able one.

At the close of Judge Fleming's remarks Judge McClenahan again called the prisoner before him and after putting him under oath asked the usual questions regarding his birthplace, residence, occupation, family and the like.

The court then said that if there was vengeance in the law no such sentiment found lodgment in the breast of the court. The defendant had been fairly tried and had had an able defense conducted by able counsel. As to the insanity plea, the verdict of the jury showed insanity not to exist. A verdict of guilty of a higher degree would have found evidence to sustain it and the jury was composed of twelve merciful men who had dealt leniently with the case. He did not say this as a criticism for he believed that the jury

did what they believed to be their duty. For the information and comfort of the prisoner the court stated that the length of punishment, especially in long imprisonment, was very materially diminished by good behavior. Should he impose the extreme penalty of the law, thirty years, it could be reduced to a little over seventeen by good behavior. He then proceeded to pass sentence as above.

The prisoner received the sentence with the same composure, amounting almost to apparent indifference, which has characterized his demeanor throughout the trial. Mrs. Towers, who has borne up amazingly during the trial, broke down during Mr. Fleming's remarks and the defendant turned and evidently tried to comfort her, but she continued to sob during the rest of the proceedings.

LIGHTS SHUT OFF

City Lights Will be Shut off Tomorrow
to Permit Connecting up of Other
Water Wheel

Supt. Baker informs THE DISPATCH that the electric lights will be shut down tomorrow morning to permit of the connecting up of the water wheel, which has been out of commission the past two weeks. The repairs have been completed and it is expected that the wheel can be put in place and connected up in time to have lights tomorrow night again, but it may not be possible to complete the work tomorrow, in which case there will be no lights tomorrow night. All should bear this in mind and govern themselves accordingly as the entire city may be in darkness.

How to Avoid Pneumonia

You can avoid pneumonia and other serious results from a cold by taking Foley's Honey and Tar. It stops the cough and expels the cold from the system as it is mildly laxative. Refuse any but the genuine in the yellow package. H. P. Dunn & Co. mwfwd

PASTORS DREW CROWDS

Local Ministers Attracted Large Audiences and Preached Effective Sermons at the Tabernacle

In spite of the intense cold prevalent Saturday and yesterday, large crowds convened at all the services to hear what the local clergymen, who occupied the pulpit, had to say upon the subjects advertised, and men and women were moved toward Christian living.

"THE SQUARE DEAL"

A large crowd was on hand to hear Rev. A. E. Allin, of the Congregational church, on Saturday night, and hear of his message on "The Square Deal." The sermon was a plea for justice toward civil institutions and justice toward the Creator. The address was one that strongly appealed to young manhood and was delivered in a vigorous and effective manner, which proved that the speaker was no novice at handling revival audiences, while the sermon left a deep impression upon all who heard it.

"WHAT IS IT TO BE BORN AGAIN?"

Notwithstanding yesterday was a poor day for church services generally, all the churches saw larger audiences than usual, and the afternoon meeting at the tabernacle was well attended. The speaker, Rev. Charles Fox Davis, took for his theme: "Marvel Not That I Said Unto Thee, Ye Must Be Born Again," preaching an argumentative discourse which proved profitable to all who heard it.

"THE LAST WORDS OF CHRIST"

Both preaching and singing at last night's services were out of the ordinary, and hundreds were deeply impressed. Prof. Martin's choir was the largest gathering of singers yet gathered together, and the entire audience was inspired with its singing of sacred songs.

Rev. McLeod, the speaker of the evening, took for his text, "It Is Finished," and delivered a remarkable and helpful discourse on the things which came to an end when Christ gave up his life as a sacrifice on Calvary. The address spoke of the significance of the three words, showing particularly how the sufferings of the Christ together with His death constituted the sacrificial part of His mission; the significance of Christ's cross which stands today as the great center of the moral universe, and the effects of these facts upon the phenomena of the Old Dispensation. Going deeper into his theme, Rev. McLeod showed how the tragedy enacted on Calvary was the finishing of the Dispensation of types and symbols which preceded Jesus, and how this vast dispensation of types and symbols was only elemental, preparative and preliminary, and that Christ's finished work ended the promissory and prophetic words of the prophets. The message proved to be one of power, many finding hope and faith in Christ at its close.

THIS WEEK BRINGS MEETINGS TO CLOSE

But one week yet remains before the meetings of the tabernacle will close, and all will double their efforts to make it the most effective one of the entire series. Each morning at 9:30, afternoon at 3:30 and evening at 7:45 services will be conducted. Dr. Kiley is announced to preach on the following themes each evening:

Tonight—"The Christian and the Card Table."

Tuesday—"Is God a Person or a Principal?"

Wednesday—"Is the Devil an Individual or an Illusion?"

Thursday—"Are Heaven and Hell Real or Imaginary?"

Friday—"The Whole Family for God."

REPAIRS PROGRESSING

Reconstruction of Interior of Y. M. C.

A. Getting Along Fine--

Opening in February

The repairs to the interior of the Y. M. C. A., which almost amount to reconstruction, are getting along finely, and the committee is beginning to see the end. They hope to have the work completed and be ready to reopen the building early in February, probably between the first and the tenth of the month. Mr. Holmes, the new secretary, has been putting in his time the past few days familiarizing himself with the work and local conditions here in getting acquainted with the people. He is making a good impression on those that meet him and the board of directors has apparently made a very successful selection.

GUARANTEED STOMACH REMEDY.

H. P. Dunn & Co. Will Refund Money
If Mi-o-na Fails to Cure.

You may ask why it is that Mi-o-na stomach tablets are sold by H. P. Dunn & Co. under a guarantee to refund the money unless they cure, when no other treatment for stomach troubles is sold in this manner.

The answer is simple and conclusive. Other medicines for stomach troubles merely digest the food, while Mi-o-na strengthens the whole digestive system so that it soon becomes able to care for all the food that is eaten.

If you do not use your arm or leg for a month the muscles become flabby and weak and you have to resort to artificial help. It is the same way with the stomach muscles. If they are not used they become so weak that it is necessary to continue using a digestive tablet with the food you eat.

On the other hand, when you use Mi-o-na, your stomach soon grows so strong that you can give up the use of medicine.

Mi-o-na costs 50c a box and does more real good than a dozen boxes of ordinary digestive tablets. The proof of this is shown in the fact that a guarantee, absolute and unqualified, is given by H. P. Dunn & Co. with every box of Mi-o-na.

TWENTY-SEVEN DEAD

THIRTY-FIVE OTHER PERSONS INJURED IN AN ACCIDENT AT SANDFORD, IND.

CAR OF POWDER EXPLODED

ENTIRE PASSENGER TRAIN IS BLOWN FROM THE TRACK AND DESTROYED.

Terre Haute, Ind., Jan. 21.—Twenty-seven charred, broken and mutilated bodies have been taken from the smoldering ruins of passenger train No. 5 on the Cleveland, Chicago, Cincinnati and St. Louis railroad (Big Four), which was destroyed by the explosion of a carload of powder as it passed a freight train at Sandford, Ind., nine miles west of here. The list of injured will total at least thirty-five.

The cause of the disaster has not been fully explained, as several theories are advanced. The shock was felt for thirty miles, many believing it to be an earthquake. The three coaches of the passenger train were filled.

The entire train, including the engine, was blown from the track, the coaches demolished, the engine hurled fifty feet and the passengers either blown to pieces, consumed by fire or rescued in a more or less injured condition.

At least thirty-five injured, some fatally, are at the hospitals in Terre Haute and Paris, Ill. Several are also being cared for at Sandford. The full extent of the disaster was revealed at daylight but the death list will not be complete until workmen now clearing the debris have finished their task.

According to trainmen of the freight, the explosion of the powder was caused by the concussion made by the passenger train, which was slowing down for the station at Sandford. Another theory is that gas escaping from an oil pipe line nearby entered the car containing the powder and a spark from the passing engine ignited the gas.

Another Theory Regarding Disaster. The belief was expressed by one of two persons that the disaster was due to the fact that a person, an intoxicated person, who had been drinking a shot

into the car. Cars were literally hurled to pieces by the terrible force of the explosion. Huge masses of iron were found hundreds of feet from the track. The tank of the passenger engine was hurled nearly 100 feet, landing in a gravel road. Two passenger coaches were consumed by fire, which broke out in the wreckage. The freight engine that was hauling the car of powder was demolished. Eight freight cars were wrecked and burned. The others were pulled out of danger. Not a home in Sandford escaped damage. Windows were shattered, dishes and furniture broken and in some instances doors were torn from their hinges.

The train was an accommodation passenger train running from Indianapolis to Mattoon, Ill., and was destroyed at 8:00 p. m. It was a dark night and heavy rains had converted the streets and tracks at Sandford into a sea of mud and water. The people were retiring and lights of many of the houses had been extinguished. As the passenger engine went by the powder car of the freight train standing on the adjoining track, the explosion came without warning. Those who survived instant death were knocked unconscious.

The entire train was blown from the tracks into the mud, a twisted weight of iron and steel, beneath which lay forty human beings. Fire broke out in the wreckage and before the eyes of citizens who rushed from their homes many burned to death before aid could be rendered them.

Aided the Stricken People.

In the glaring light of the burning coaches the people of Sandford did their best for the stricken people. The residents of the village threw open their homes to the injured and worked heroically all night.

Rescuers worked frantically, but soon were forced back by the terrible heat. The odor of burning flesh sickened many rescuers as they worked.

One of the first men taken out was L. F. Rose of Mattoon, Ill., engineer of maintenance of way of the Big Four road. His leg was broken and he was severely bruised. He was carried to the house of C. E. Marrs.

Although this house had been partly destroyed by the explosion, it was converted into an emergency hospital.

Others were pulled from the ruins as the flames advanced. As men hastily worked to disentangle the human forms from the wreck the women of Sandford cared for the injured. When the fire drove the rescuers away they waited till the heat permitted and then resumed the work of dragging out the charred bodies. As the fire burned down to a smoldering pile lanterns were brought. Men continued their search of the nearby fields, where pieces of human flesh and wearing apparel were picked up

FAIR PLAY.

The American People are Noted for Their Love of Fair Play. So True Is This, That It May Be Said To Be a National Trait of Character.

The man who strikes another a foul blow, or maliciously tries to injure him in his business, or in his social standing is detested and abhorred. The American people are not generally slow to manifest their disapproval of such unfair treatment when an opportunity is afforded.

Illustrative of this disposition is the fact that although base, false and malicious attacks upon Dr. Pierce, of Buffalo, and his widely celebrated Family Medicine have sometimes injured the sale of these meritorious remedies for a time, yet when such unjust assaults have been met and their falsehoods completely refuted, a natural reaction has followed and their sale has been fully restored again.

In the case of the *Ladies' Home Journal*, of Philadelphia, which, in 1904, published a most malicious, false, slanderous and libelous article, attacking Dr. Pierce and his "Favorite Prescription"—the well-known cure for women's peculiar weaknesses and distressing ailments—Dr. Pierce brought suit in the Supreme Court of the State of New York against the publishers of that paper and a verdict was given the Doctor, the judgment being for a substantial amount (\$16,000.00) yet not for enough to properly recompense Dr. Pierce for the great injury and injustice done him. While he and his "Favorite Prescription" were completely vindicated and the latter remedy was proven, in open court, to contain no alcohol and none of the dangerous and injurious drugs which the above mentioned paper had alleged it contained, yet Dr. Pierce has, through his attorneys, moved for a new trial trusting that thereby he may finally be accorded a more just and adequate compensation for the great damage which he was made to suffer by reason of the base falsehoods published concerning him and his business.

There are hundreds of thousands of people all over this blessed country of ours who have been cured of obstinate, chronic diseases through the use of Dr. Pierce's Medicine, and most gratifyingly that such people should rise up and speak their sentiments pretty freely when Dr. Pierce and his medicines are so unjustly attacked.

These grateful patients of Dr. Pierce are to be found in almost every hamlet and country village, and in the farm-houses and mechanic's cottages in every nook and corner of this great country. Common gratitude prompts such people to stand up and defend Dr. Pierce and his medicines against unjust and malicious attacks.

Dr. Pierce's Medicines have been on sale in drug stores all over this country and in many foreign lands for more than forty years and yet their sale continues to grow in a substantial and most gratifying way. This could not be the case if they were not remedies of more than ordinary merit.

WHAT DO THEY CURE?

Dr. Pierce's Favorite Prescription is not advertised as a "Cure All" but admirably fulfills a singleness of purpose, being a superior and most positive remedy for one class of diseases only—those easily recognized weaknesses, derangements, irregularities and painful disorders peculiar to women. It is a powerful, yet gently acting, invigorating, tonic and strengthening medicine. For weak, worn-out, over-worked women—no matter what has caused the break-down—whether it be from too frequent bearing of children or from much worry, care, or over exertion of any kind, "Favorite Prescription" will be found most efficient in building up the strength, regulating all the vital and most gratifyingly banishing pain and bringing about a regular and healthy, vigorous condition of the whole female system. Thus it corrects prostration, or falling of womb, retroversion, anteversion and other displacements of the female pelvic organs, due to weakness or over exertion, lifting or fatiguing work. In short, it makes weak women strong and sick women well.

As to Dr. Pierce's Golden Medical Discovery, it is a very large range of application, yielding by no means recommended as a "Cure All." It possesses marvelous alterative, blood cleansing, purifying and invigorating qualities. It exerts a specific, cleansing, soothing and healing effect upon all the lining mucous membranes of the system; hence, its great curative value in all catarrhal affections, no matter where located.

In Chronic Nasal Catarrh, it is well to cleanse the passages two or three times a day with Dr. Sage's Catarrh Remedy fluid, while persisting in the use of the "Golden Medical Discovery." This is a powerful cleansing and specific curative effects upon the diseased mucous membranes. It will cure a very large per cent. of all cases, even after they have reached the ulcerative, or chronic stage, and no matter of how many years' standing they may be. It is equally efficacious in affection of the mucous lining of the larynx, bronchia and respiratory organs in general, thus curing bronchitis, laryngitis and other affections giving rise to obstinate, hang-on-coughs. It is not so good in acute coughs following sudden colds, as in the lingering, chronic coughs. Nor must the "Golden Medical Discovery" be expected to work miracles. It will not cure consumption in its advanced stages—no medicine will do that, but for all obstinate hang-on-coughs due to laryngeal or bronchial irritation and kindred affections of the throat which, if neglected or badly treated, are likely to lead up to consumption, the "Discovery" can be relied upon to produce the best curative results.

The "Golden Medical Discovery" is, from its tonic and specific curative control over mucous surfaces, especially efficacious in curing indigestion, dyspepsia, weak stomach and "Liver Complaint" or biliousness. Even ulceration of the stomach and bowels has in thousands of cases been cured by it; also obstinate chronic diarrhea.

In addition to all the foregoing, not the least valuable of the marvelously efficacious properties possessed by the "Discovery" is the unequalled regulating and strengthening effect exerted by it over the heart's action. It has made some wonderful cures of very pronounced valvular and other affections of that organ.

The reason why "Golden Medical Discovery" cures so wide a range of diseases is made plain in a booklet sent free on request mailed to Dr. R. V. Pierce, Buffalo, N. Y. If interested, send for it.

The powerful alterative or blood purifying properties possessed by the "Discovery" will naturally suggest its use for the cure of blotches, pimples, eruptions, as eczema, and skin-rheum, and other skin diseases in all of which it has made remarkable cures; also in scrofulous sores and old, open ulcers, or eating sores. To heal the latter, use Dr. Pierce's All-Healing Salve as a local application, while taking the "Golden Medical Discovery" to correct the blood and cleanse the system. A box will be mailed to any address on receipt of fifty-four cents in stamps. If your drugist don't have it in stock, address Dr. Pierce, as above.

here and there and carefully taken in charge.

There was no efficient water supply to fight the flames and the bitter cold added to the suffering.

Under the wreckage of the baggage car was found the mutilated trunk of

a man. The only means of identification were a linenman's belt and tools about the waist. Four frightfully mutilated bodies were found in the woods several hundred feet from the tracks.

One thousand feet of the track was torn up and a great hole shows where the powder car stood. This car was being hauled from Concord Junction, Mass., to East Alton, Ill., and contained 500 kegs of powder.

The explosion and fire destroyed telegraphic communication, and Sandford with its victims was alone for hours. The first news to reach here from the wreck came by those who walked the distance to procure help. Relief trains with physicians and supplies were started at once and carried the injured to Paris, Ill., and to this city.

ON THE BROWNSVILLE AFFAIR.

Compromise Resolution Will Be Introduced in the Senate.

Washington, Jan. 21.—Several conferences of Republican senators were held during the day to consider the Blackburn amendment to the Foraker resolution relative to the president's discharge of the negro troops. President Roosevelt spent several hours at Senator Lodge's home. In the afternoon and several Republican senators were called in to discuss the Brownsville affair with the view of reaching an agreement as to what action is to be taken in the senate.

The Associated Press was authoritatively informed that a decision was reached to draft a resolution along the lines of the original Lodge resolution, which will meet the approval of Senator Blackburn. This resolution will be introduced by a Republican and will be supported by both the Republican and Democratic senators who take the position that the "senate" had no legal right to question the action of the president.

OWING TO SHORTAGE OF FUEL.

Railroads in Washington and Oregon at a Standstill.

Portland, Ore., Jan. 21.—Railroads are practically at a standstill in Oregon and Washington because of the inability of the companies to obtain fuel for locomotives. The car shortage is disastrous and repeated floods, landslides and snow in the mountains have all contributed to bring about a congestion without a parallel in this state. The Northern Pacific virtually has placed an embargo on all traffic east from Portland.

Girls Injured by Folding Bed.

St. Paul, Jan. 21.—Katrina Tschida, eighteen years old, and Annie Tschida, fifteen years old, daughters of M. A. Tschida, 436 Lafond street, were seriously injured by the closing of a folding bed. Miss Annie has a compound fracture of the right arm below the elbow. Miss Katrina received internal injuries and her recovery is doubtful.

Telegraph Pole Wrecks Train.

Erie, Pa., Jan. 21.—An overturned telegraph pole hurled across the Nickel Plate tracks by the heavy gale wrecked a westbound passenger train on the Nickel Plate railroad at Fairview, near here. Twenty persons, the occupants of two coaches overturned by the force of the collision, were injured.

Breaks Ski Jumping Record.

Duluth, Jan. 21.—More than 5,000 people, one of the largest crowds that ever witnessed a ski jumping test in this country, saw the American record of the long distance jump broken by six feet on the hill of the Duluth Ski Club. Ole Feiring of Duluth was the successful contestant. His longest jump was 112 feet, but on each of his three trials he broke the former world's record, made by Gustav Bye, also of Duluth, in a tournament at Red Wing two years ago.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in the country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free.

The Health of Mind and Body

The mind is dependent on the brain, and the brain in turn is a bundle of nerve cells, which are nourished and sustained by pure, rich blood. Hence, the absolute necessity of supplying the elements from which the blood is made.

These elements of Nature which go to form new rich blood and revitalize wasted and depleted nerve cells are found in splendid proportions in Dr. A. W. Chase's Nerve Pills.

By using this great prescription you supply the material substances from which are formed brain and nerve force. It may take weeks or even months thoroughly to restore your health with Dr. A. W. Chase's Nerve Pills, but you can be absolutely certain that every dose of this great restorative is at least of some benefit to you.

The healthful complexion, the well rounded forms, the energy and elasticity of movement characteristic of persons who have used Dr. A. W. Chase's Nerve Pills are the strongest evidence of their wonderful restorative influence. 50 cents a box, at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.
